

Md. Refat Al Hasan Kaif

Full Stack Developer

Rajshahi, Bangladesh | +8801758055919 (WhatsApp) | mdrefatahk@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer specializing in Next.js and Node.js, with hands-on experience in building complete web applications following the full Software Development Life Cycle (SDLC) from planning and design to development, testing, and deployment. Proven track record of shipping production-ready platforms featuring secure authentication, Stripe payment integration, role-based access control, and AI integrations. Proficient in React.js, Express.js, PostgreSQL with Prisma ORM, and MongoDB, along with modern JavaScript (ES6+), TypeScript, Firebase, and Cloudinary to deliver scalable and maintainable solutions. Experienced in using AI for rapid development and maximizing productivity.

SKILLS

- **Languages:** HTML, CSS, JavaScript (ES6+), TypeScript, SQL.
- **Frontend:** React.js, Next.js, TailwindCSS, Shadcn UI, Responsive Design.
- **Backend:** Node.js, Express.js, Better Auth, JWT, REST API, API Development.
- **Database:** PostgreSQL, Prisma ORM, MongoDB, Mongoose.
- **Tools:** Postman, Firebase, Stripe, Cloudinary, Git, GitHub.
- **Soft Skills:** Adaptability, Team Collaboration, Decision Making, Fast Learning.

PROJECTS

BytesURL | URL Shortener with AI Integration and Analytics.

[Live Link](#) | [Frontend](#) | [Backend](#)

A high-performance URL shortener platform that enables users to create, manage, and track short links with real-time analytics, secure authentication, role-based access control, Stripe subscription payments, and AI-powered chat support.

Technology: Next.js, TailwindCSS, Node.js, Express.js, PostgreSQL, Prisma, Stripe, Firebase.

- Built a URL shortener using NanoID capable of generating 281 trillion+ unique links.
- Implemented real-time click analytics dashboard with GeoIP-based location tracking and AI chat integration.
- Integrated Stripe for subscription payments with user and admin role-based access.
- Developed secure authentication and RESTful API using Node.js, Express, and Prisma.

GreenStatesBD | Real Estate Bidding Platform with AI Features.

[Live Link](#) | [Frontend](#) | [Backend](#)

A scalable real estate bidding platform that allows users to explore, list, and bid on properties with role-based access control, content moderation, AI-powered features, and optimized media management for a production-ready experience.

Technology: Next.js, TailwindCSS, Node.js, Express.js, PostgreSQL, Prisma, Firebase, Cloudinary.

- Built a property bidding platform with role-based dashboards for buyers and admins.
- Implemented multi-provider OAuth authentication (email/password, Google, Twitter).
- Integrated Cloudinary for optimized media upload, transformation, and delivery.
- Developed an AI-assisted blog generation system for automated listing content.

COURSES

[Complete Web Development](#) | Programming Hero.

Jul, 2024 - Mar, 2025

[Next Level Web Development](#) | Programming Hero.

Nov, 2025 - Present

LANGUAGES

Bengali - Native

English - Proficient in professional reading, writing, and communication
